Who we are: "International Partnering in Lifescience Society"

The IPLS is an umbrella group for 8 national Business Development & Licensing organisations in France, Germany, Switzerland, Italy, Spain, United Kingdom, Central & Eastern Europe and the Nordics. All dedicated to networking, education and best practice in life-science.

Our society was formed in 2003, to coordinate international activities and liaison between our members. It is a not-for-profit organization.

International
Partnering in
Life-science
Society

Our Vision

- Offer the best environment for successful partnerships in Life Sciences.
- Inform, educate and facilitate networking and business for BD&L professionals in Life Sciences on an international basis.

International
Partnering in
Life-science
Society

Our Mission

- To act as a representative Council for the National Pharma & Healthcare BD&L Groups.
- To exchange ideas concerning best practices within the national groups and ways to cooperate.
- Encourage the creation of new groups in any countries not covered by the current group network.
- Stimulate contact with other international trade associations and other BD&L groups.

Society

The background of the image is a top-down view of a petri dish tray. The tray is filled with a grid of circular wells, each containing a uniform, bright orange agar medium. The tray itself is dark, possibly black or dark grey, with a fine, perforated texture. The lighting is even, highlighting the smooth surface of the agar in each well.
